TO WHOM IT MAY CONCERN

Isibusiso Sethu ECD will always remember November 2025 as the moment our centre truly came alive with books and stories. When the Young Leaders Academy introduced us to the We Love Reading program, we immediately embraced the opportunity, knowing how vital it was for our children to have access to books.

On 22 November 2025, 15 of our volunteers were trained as Reading Ambassadors and each received a set of 15 books. For a centre that had only six books for 82 children, this was nothing short of a miracle. Suddenly our shelves were full, our children had choices, and reading has become a diverse activity.

We are excited for the changes we will see in our learners, aged 2 to 5. So far, our learners are excited, engaged, and eager for story time, especially when they hear stories in their home language. As we continue with the We Love Reading Program, we hope to see reading as part of a daily routine in our learners lives, including their families and communities.

On behalf of Isibusiso Sethu, we thank Adv. Mahomed Vahed and the Young Leaders Academy from the bottom of our hearts for remembering a small centre. You have not only given us books — you have given our children a love for reading and a brighter start in life.

Yours Faithfully

Mrs. S.S. Ndlovu

Principal, Isibusiso Sethu Day Care
